**Implementation of Fenwal Collection Sets/Automated Production Method
at Canadian Blood Services – Saskatchewan UPDATE**

Customer Letter # 2010-29

2010-08-19

Dear Customer,

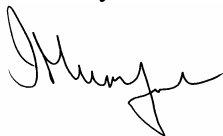

Further to Customer Letters 2010-14 and 2010-21 we are pleased to provide further information regarding the implementation of Fenwal collection sets/automated production method in Saskatchewan.

An implementation date of October 25, 2010 has now been finalized for the Fenwal collection sets/automated production method. Following implementation, hospitals can expect to receive and maintain a mixed inventory of product; some products produced in the Fenwal sets and some products produced in the current Pall Medical sets.

Please share this letter with the relevant user community in your facility. If you have any additional questions, or would like to receive further information please contact your local Hospital Liaison Specialist (Val Paulson at 306-347-1633 or valerie.paulson@blood.ca) who will be happy to discuss these matters further.

This Customer Letter can also be viewed at www.blood.ca in the “Hospitals – Customer Letters” section.

Sincerely,

Ian Mumford
Chief Operating Officer
